

ECTO F724 PRODUCT

EFFICACY SUMMARY

Ecto Development Corporation (Company # 67505) developed all information and data to support the registration of ECTO F724 PRODUCT. The following listed study submitted with this application confirms the efficacy of this product when used on cats. This product kills flea eggs and flea larvae and prevents flea eggs from developing into biting adults.

At the time of development the product was referred to as Ecto F724 Spot-On For Cats With IGR or Ecto F724 Cat Spot-On With IGR.

The study 2412-95 "EFFICACY EVALUATION OF "ECTO F724 SPOT-ON FOR CATS WITH IGR" TO DETERMINE THE INSECT GROWTH REGULATING EFFECT ON FLEAS" showed that the product was 100% effective in eliminating adult flea emergence from day 7 thru day 31 of the study.
